and NSD File No. L-00-72.

Dear FCC:

I understand that you want to increase the USF fees we have to pay for cell phone service 10 fold. This seems very unfair. Telephone service and especially cell phone service is already ridiculously expensive - like 75 cents a minute for local, and \$1.50 for roaming. With regular phone service the taxes and user fees are outstripping the service itself. Are you trying to destroy the industry or just bankrupt the citizens?

Please reconsider.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Peter M Johngren
